studying by candlelight during a blackout

doing extra credit reports

a teacher's taking the time to check out

reading *Great Expectations* in one night

tutoring twice a week

ignoring a cold to take an algebra test

going to language lab after school

doing the odd exercises, too

reading for fun

re-writing a paper for neatness

The Spirit of Underclassmen is . . .

aiming for the varsity, leadership, and a diploma

trying out for *Jet Jotter* and *Masacksic*

preparing for more responsibilities

happily paying $5 for class dues

trying out for football as a 110 lb. junior

staying for Playday

taking the booster bus to away games

supporting the Student Council store

not leaving a tray in the cafeteria

going to a freshman football game

listening quietly at an assembly

looking forward to senior year.

We're first with a dance and a prom

MRS. MacINTYRE AND MR. ALDRICH help in organizing junior activities.

JUNIOR CLASS OFFICERS: Henry Rigali, President; Sharon Black, Secretary; Jean Spallino, Treasurer; Jim Warner, Vice-President.

the junior class is . . . laughing, thinking, growing, learning . . . pushing through English lit, ten novels, and still those vocabulary tests . . . chemistry, French literature, physics, and honors courses too . . . but having fun and full of spirit.

the junior class is . . . finally on the varsity lineups . . . something pretty important . . . and then the prom of course . . . beginning to realize that college isn't that far away . . . getting ready . . . and working hard, playing hard, and thinking hard at LHS.

the juniors are . . . finally upperclassmen . . . distinguishing themselves as a really great group . . . on the move all the time with their licenses, finally . . . getting more serious and responsible lately, finally planning ahead . . . taking PSAT's this year . . . talking about the prom . . . applying for AFS . . . worrying about college boards . . . the juniors are . . . almost seniors now, at last.

--second only to Seniors!

BRADLEY

After more than 100 years of contribution to the joy of living and to the happiness and betterment of childhood through its production of toys, games and educational material, Milton Bradley Company looks forward to the future with confidence.

New and exciting things are happening these days in America's classrooms. The teaching profession knows that educating our children properly requires more than bricks and mortar for new school buildings. Progressive educators with imagination are pioneering and experimenting today with the results which could be the conventional curriculum of tomorrow.

Milton Bradley Company's objective lies in its ability to furnish the necessary tools to meet the demands for child training of the future.
